

## How to turn Windows Defender on/off in Windows 8

1. Open Windows Defender by clicking the Start button . In the search box, type Defender, and then, in the list of results, click Windows Defender.
2. Click Tools, and then click Options.
3. Click Administrator, select and check the **Use this program check box**, then click Save.  
 If you're prompted for an administrator password or confirmation, type the password or provide confirmation.
